Connect to the future!
Industry 4.0 by Bühler.

Start your Industry 4.0 project today!

Have you thought about the benefits of analyzing your production data to improve your processes and maintenance?

Your Bühler machines are Industry 4.0 ready today!

They are capable to collect data and connect to your Manufacturing Execution System (MES).

Whether you already have an existing MES and internal cloud and want to do the "big data" yourself, or you chose Bühler to host and analyze data in the Bühler cloud, we can offer you solutions to get you connected to make your data work for you and keep you informed about your machines. Anywhere, anytime.

Lets welcome the future, Bühler Leybold Optics.
