

# ChocoOne

## Loose mould line

### Benefits:

- Chocolate moulding line with loose moulds and intermittent mould transport
- Mould size 425 x 275 x 30 mm
- Product capacity: 250-650 kg/h
- Available depositing modes: spot, ribbon, shutter knife and one-shot
- High-precision depositing results
- Quick-change depositing tools
- User-friendly and intuitive operation
- Designed and built for 24/7 production

### Small footprint - Big Impact!

Developed for chocolate enthusiasts, the ChocoOne meets all requirements for small-scale production with highest product quality.

Nowadays, chocolate manufacturers should react quickly to ever-changing market conditions, constantly surprise with new creations and reinvent themselves almost every day.

The ChocoOne empowers you to produce a diverse range of products on a single system: From solid chocolates to those with inclusions, and even one-shot products. Not only is our ChocoOne the perfect entry line, but it also offers consistently high-quality end-products for experienced chocolate manufacturers.
